Project Angel Food Today

Today, Project Angel Food celebrates 30 years of service, and more than 12 million meals lovingly prepared and delivered to over 22,000 people across 4,751 square miles of Los Angeles County. Nearly all of our seriously ill clients live at or below the federally established poverty level. Most have little or no access to additional resources for free, nutritious meals which not only sustain their health, but help them get better.

30% of our clients report that they have been at risk of homelessness, and many have been homeless within the past ten years.

Project Angel Food’s medically tailored meal delivery program helps our clients improve their health and maintain a stable living environment, freeing up much-needed funds for rent and other basic necessities.

Project Angel Food is a vital lifeline for thousands of Angelenos and the role of our program in preventing homelessness cannot be understated.

14,000 Project Angel Food meals are served every week.

2,367 people aged 16 to 109 will be served more than 650,000 Project Angel Food meals this year.

39 different diet combinations are offered based on a client’s nutritional needs.
